

# General

## Where is the Fade In application log file located?

The Fade In application log file, generated while it is running, can be found at:

### Windows:

C:\Users\username\AppData\Roaming\Fade In (Vista/Windows 7 and later); or  
C:\Documents and Settings\Application Data\Fade In (XP and earlier)

### macOS:

/Users/username/Library/Application Support/Fade In; or  
/Users/username/Library/Containers/com.generalcoffee.fadein/Data/Library/Application Support/Fade In (Mac App Store version)

(Note: To view the user "Library" folder in Finder on macOS, you may need to press the **Option** key after clicking the **Go** menu.)

### Linux:

~/local/share/fadein

(Note: For older versions of Fade In, this directory was: ~/.fadein.)
