General

Resolution on Windows HiDPI displays

If fonts appear jagged when running on Windows on a HiDPI display, it may be necessary to disable display scaling for Fade In. That can be done by right-clicking on the Fade In icon and choosing **Properties**. Then, in the **Fade In Properties** dialog, uncheck **Disable display scaling on high DPI settings**.

Fade In Properties

General **Compatibility** Security Details

If this program isn't working correctly on this version of Windows, try running the compatibility troubleshooter.

[Run compatibility troubleshooter]

How do I choose compatibility settings manually?

Compatibility mode

☐ Run this program in compatibility mode for:

[Windows 8 ▾]

Settings

☐ Reduced color mode

[8-bit (256) color ▾]

☐ Run in 640 x 480 screen resolution

☑ **Disable display scaling on high DPI settings**

☐ Run this program as an administrator

☐ Enable this program to work with OneDrive files

[🛡 Change settings for all users]

[OK] [Cancel] [Apply]
