Fade In Mobile (old)

What format(s) can Fade In Mobile open?

(Please note: This entry refers to an older version of Fade In Mobile, which is no longer available.)

Fade In Mobile works with Fade In (.fadein) files.

To convert from other formats — including but not limited to Final Draft, Fountain, PDF, Rich Text Format, plain text, etc. — you can use the desktop version of Fade In (even the free demo version).
